

Quickbooks™ Hosting for CPAs

ITX® QuickBooks™
Hosting Services
empower you to
become your clients'
fully-functioning CFO.

Greater Financial Control

With ITX® QuickBooks™ hosting services, you can access your clients' business financial information from anywhere, at any time. You can get Internet access to your client's books and in-house accounting departments, to maintain fingertip control of daily business transactions.

Full-Featured Accounting Modules

Manage your clients' finances remotely with ITX QuickBooks Hosting: bill customers and pay accounts receivables for your clients; manage employee payroll and subcontractor scheduling/payments; track client bank and credit card activity; create reports analyzing assets, liabilities, income and expenses; and generate timely client tax information.

Enhanced Hosting Services

ITX expanded QuickBooks access includes a familiar terminal interface, powerful interactive tutorials, full payroll services, and real-time access to your clients' financial information. All data is instantly available for export to Microsoft Excel to produce "what if" reports. When used in Interactive Tutorial Mode, you can walk your client through the program in real-time.

Secure Environment

ITX QuickBooks Hosting provides a stable, secure environment for all your clients' business financial information. We host both the QuickBooks application and all accounting data – backing up daily to ensure the integrity of your clients' critical financial information.
